*1> Installing JDK 8u321*

*Page: <https://www.oracle.com/java/technologies/downloads/>*

*Scroll down to find the version you need.*

The screenshot shows the Oracle Java SE Development Kit 8u321 download page. At the top, there's a navigation bar with links like "Java downloads", "Tools and resources", and "Java archive". Below that, tabs for "Java 8" and "Java 11" are visible. A section titled "Java SE Development Kit 8u321" contains a note that Java SE subscribers will receive JDK 8 updates until at least December of 2030. It also mentions that the Oracle JDK 8 license changed in April 2019. A note states that the Oracle Technology Network License Agreement for Oracle Java SE is substantially different from prior Oracle JDK 8 licenses. Below this, there's a link to the "JDK 8 software is licensed under the Oracle Technology Network License Agreement for Oracle Java SE." A "JDK 8u321 checksum" link is also present. The main content area shows download links for "x86 Installer" and "x64 Installer".

Product/file description	File size	Download
x86 Installer	157.99 MB	<a href="#">jdk-8u321-windows-i586.exe</a>
x64 Installer	171.09 MB	<a href="#">jdk-8u321-windows-x64.exe</a>

*After installing, let check the installation folder:*

*Normally it will be located at: C:\Program Files\Java. It contains 2 folders JDK and JRE.*

*Open the installer file then click “Next” button, until you see the below screen:*

*By default, the HTTP port is set as 8080, but I prefer to change it to 9999. You can keep it as 8080 or change it as you desire. Same for Window Service Name.*

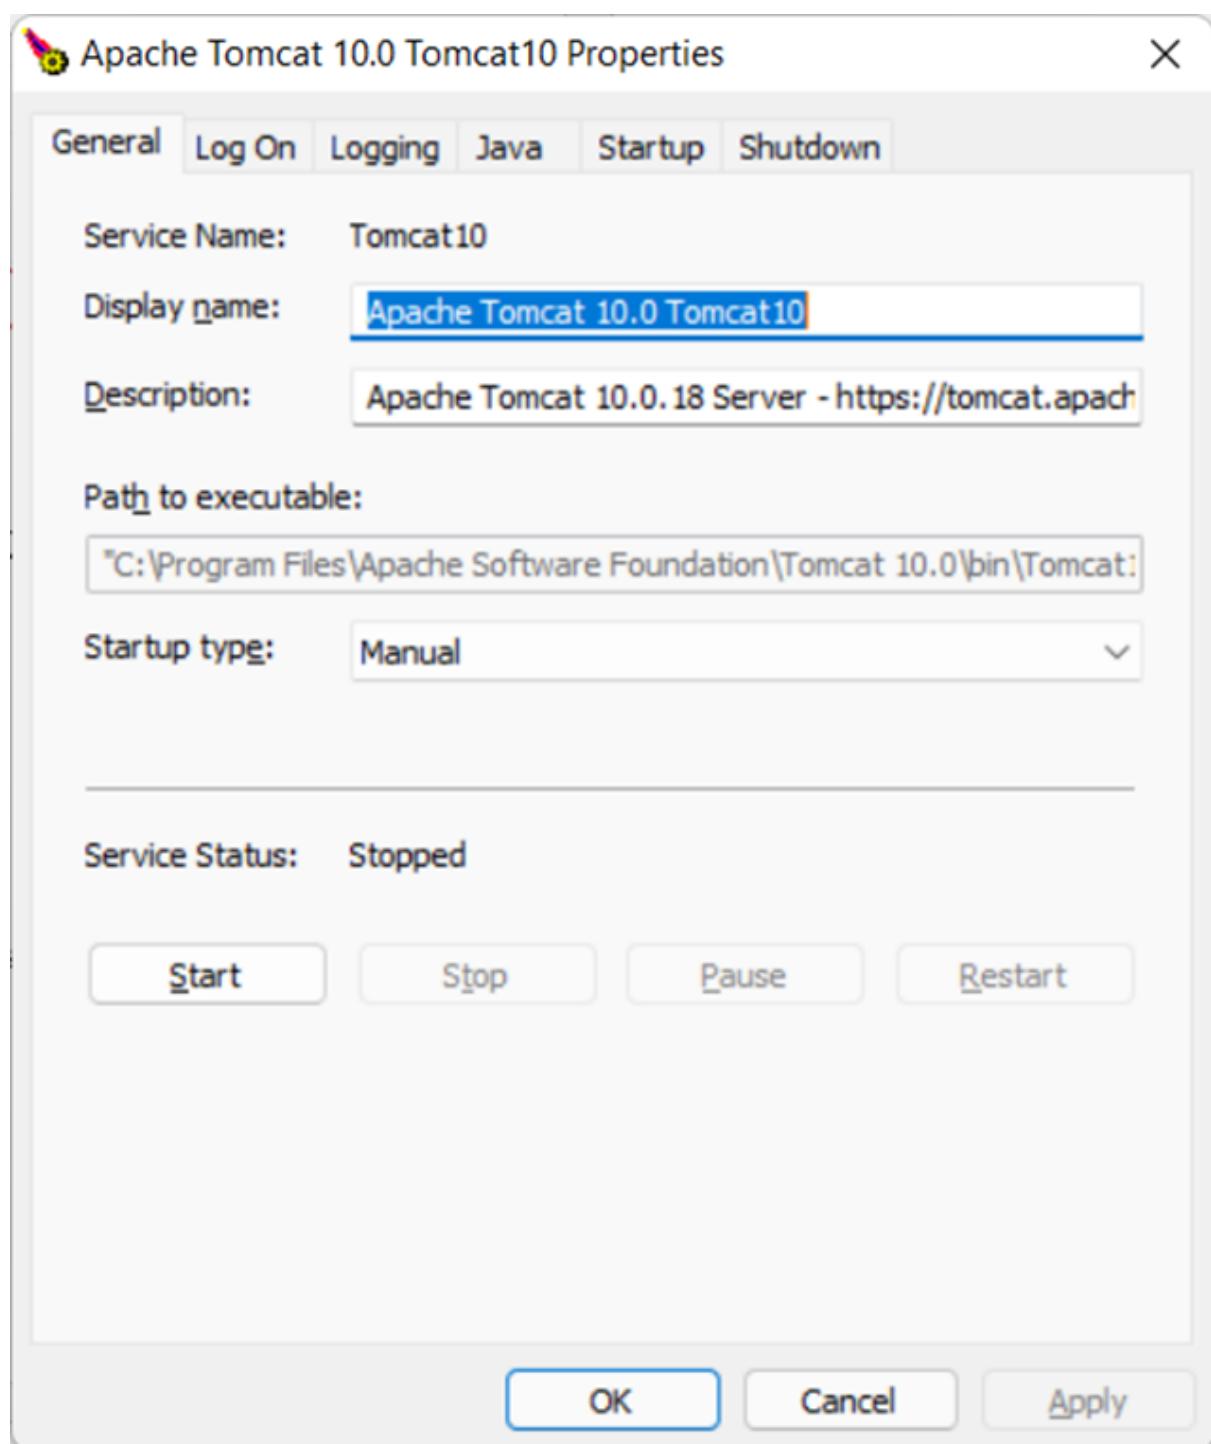

*You can also set username and password at this step, but it is an optional and you can do it later.*

*Click "Next", then the installer will ask you for JRE folder. Basically, the installer can automatically detect JRE folder, but in the case it cannot, you can add it manually.*

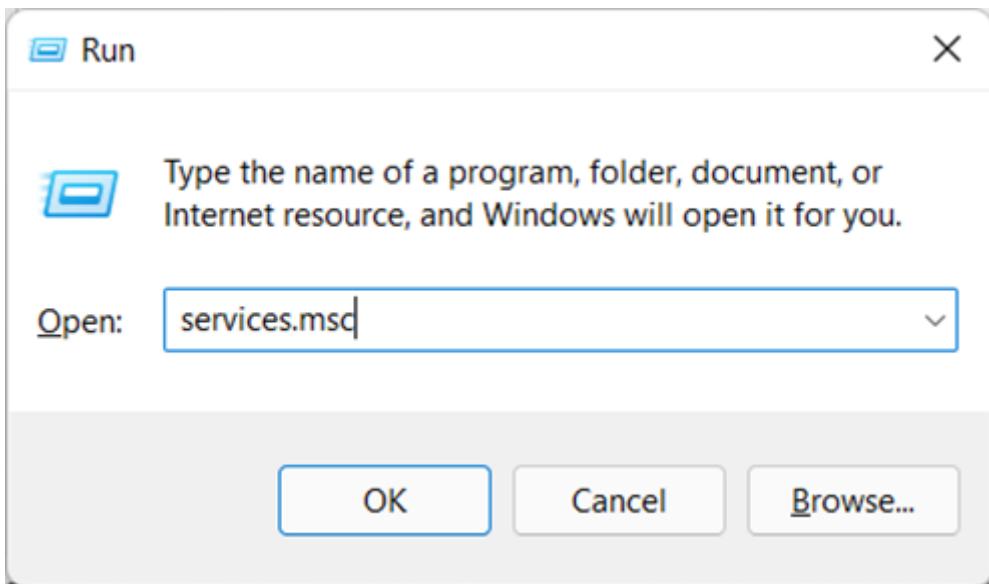

*Click "Next" .... Again then "Finish".*

*Normally, you are going to see the below window app displayed:*

*It is ok, this application used to control your TOMCAT webserver, but if you do not see it, do not worry. I recommend you follow below instructions:*

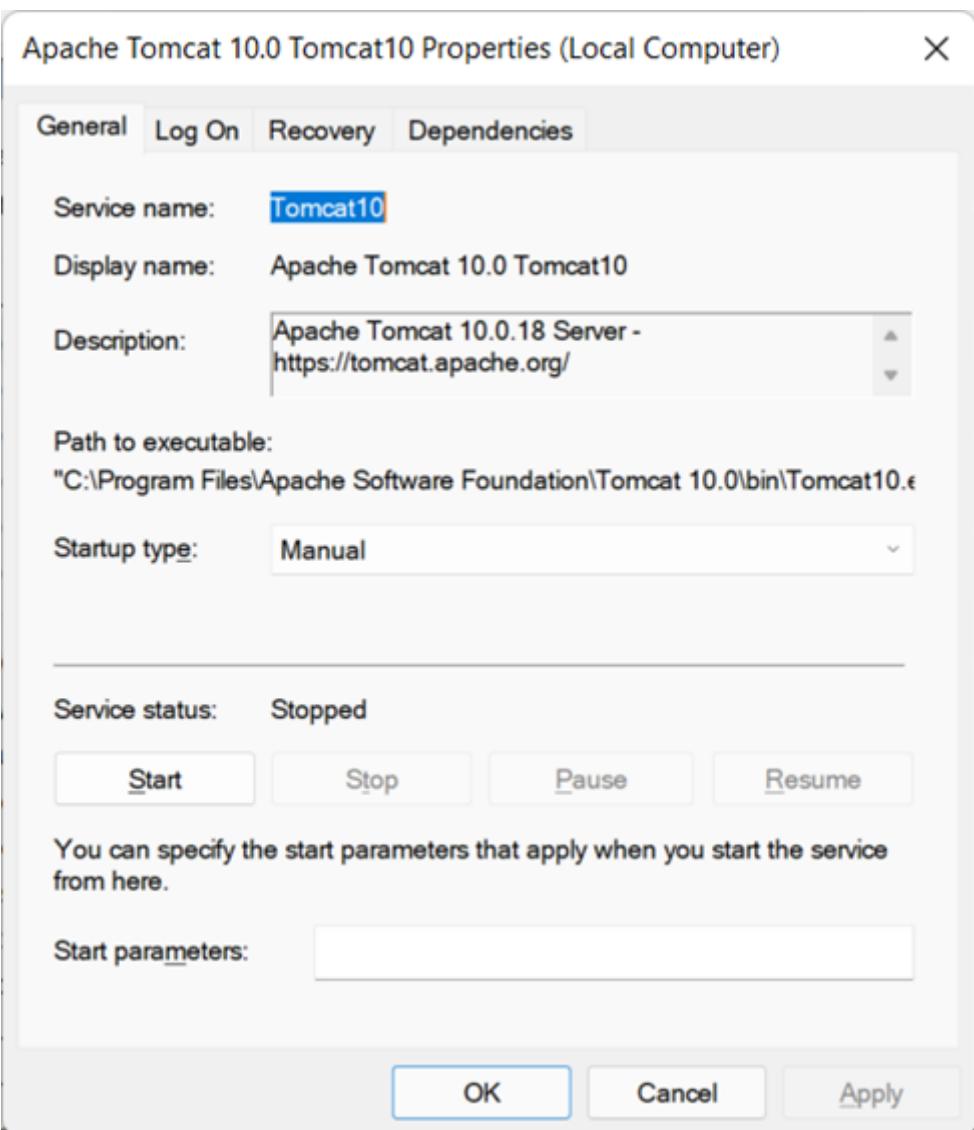

1. *TOMCAT now is installed as a Window Service (It is a software, but it does not have a graphic user interface).*
2. *To work with Window Service, press window+R, fill service.msc*

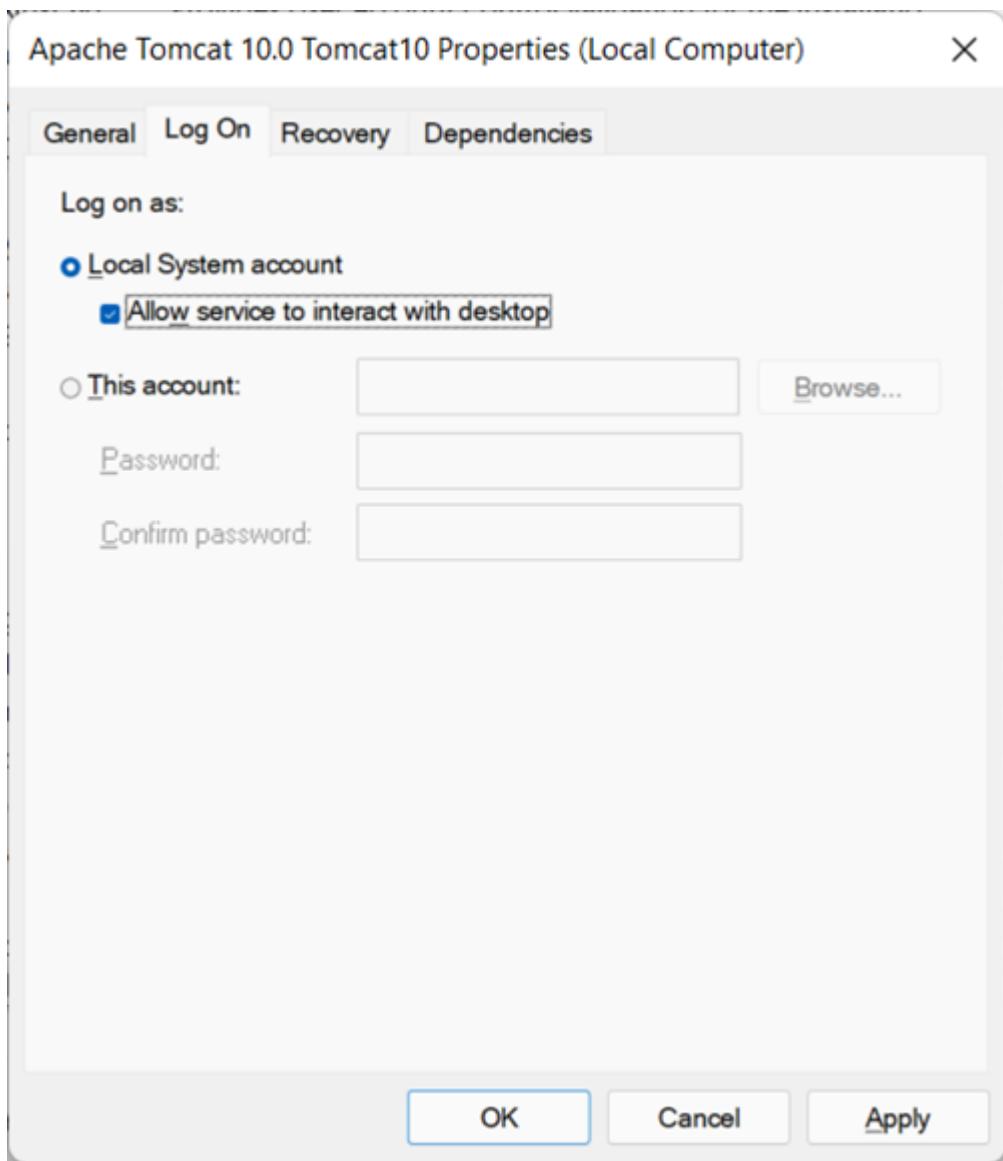

3. Find the TOMCAT service in the list:

### *3> Installing Apache NetBeans IDE 13.*

*Download: <https://netbeans.apache.org/download/nb13/nb13.html>*

The screenshot shows a web browser window with the URL [netbeans.apache.org/download/nb13/nb13.html](https://netbeans.apache.org/download/nb13/nb13.html) in the address bar. The page title is "Apache NetBeans". The main heading is "Downloading Apache NetBeans 13". Below it, a paragraph states: "Apache NetBeans 13 was released on March 4, 2022. See [Apache NetBeans 13 Features](#) for a full list of features." A list of download options follows:

- Binaries: [netbeans-13-bin.zip \(SHA-512, PGP ASC\)](#)
- Installers:
  - **Apache-NetBeans-13-bin-windows-x64.exe (SHA-512, PGP ASC)**
  - [Apache-NetBeans-13-bin-linux-x64.sh \(SHA-512, PGP ASC\)](#)
  - [Apache-NetBeans-13-bin-macosx.dmg \(SHA-512, PGP ASC\)](#)

A red box highlights the first item in the "Installers" list: "Apache-NetBeans-13-bin-windows-x64.exe (SHA-512, PGP ASC)".

*During your installation, remember to select JDK 1.8 (just in case, you have more than one version of Java).*

*After installation, run netbeans 13, File > New Project > Java with Ant > Select Web Application (It is disabled by default, just select it, netbeans will automatically enable the project template).*

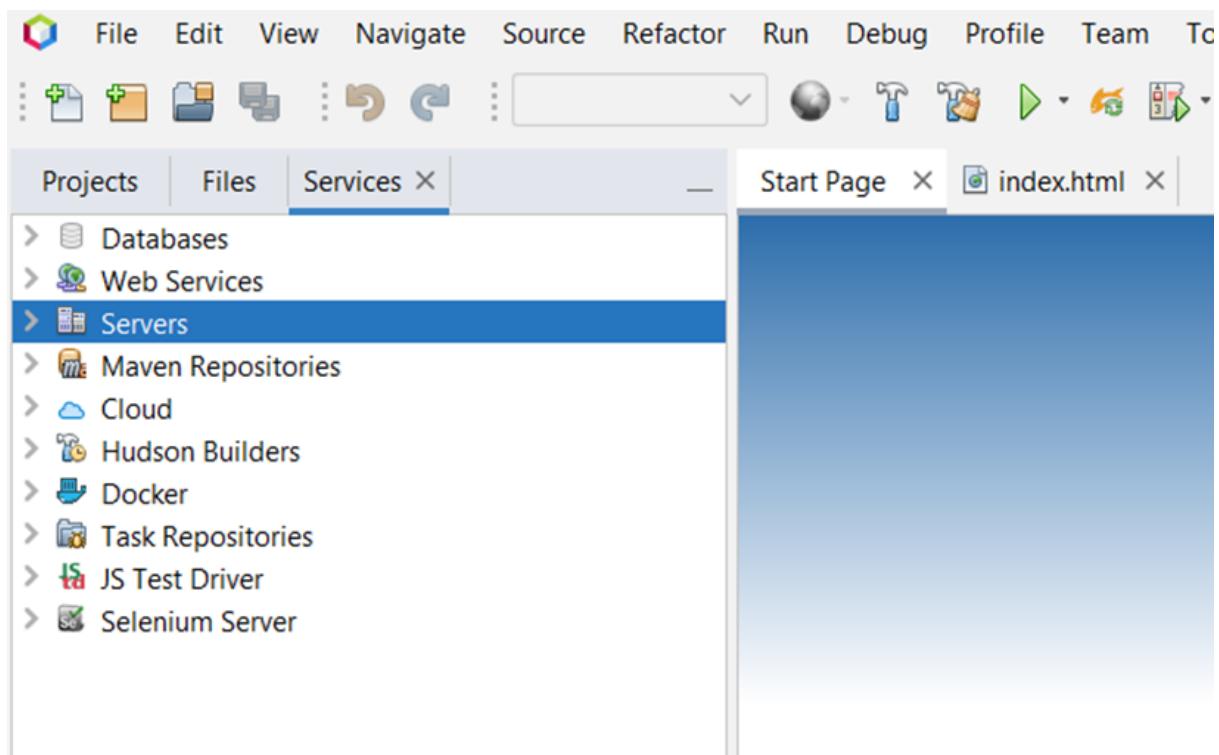

### *4> Integrating Apache NetBeans IDE 13 with Apache Tomcat.*

*+ First, open the Apache Tomcat folder:*

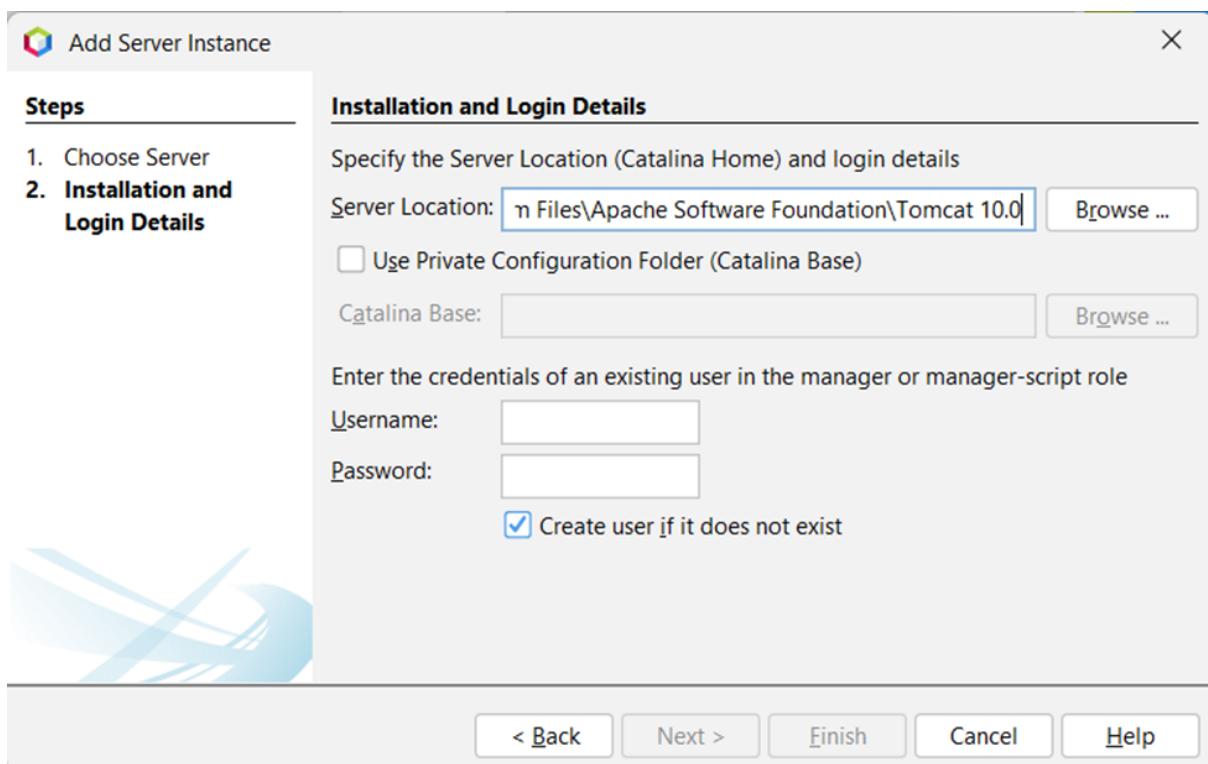

*By default, it is located at: C:\Program Files\Apache Software Foundation\Tomcat 10.0*

*The system may ask you to grant permission, just click "Yes" button. This step aims to allows your account to access the Apache Tomcat folder for further tasks.*

*+ Open netbeans, on the menu bar, Window > Service (ctrl + 5) > select Service panel as following:*

*Server > Right click > Add Server > Apache Tomcat and TomEE >*

*Here you can create your username and password, then finish. Now you can work with Java Web project in netbeans 13.*

*If you get an error related to “CATALINA\_base is Invalid”, check the first step.*

*Errors related to Tomcat will be logged to “C:\Program Files\Apache Software Foundation\Tomcat 10.0\logs”, check the catalina\*\*\*\* file for the detail logs.*

Below the header, there is a navigation bar with links for Home, All Categories, Best Selling, Weekly Sale, and Contact. A promotional banner for a 'BOOK Sale UP TO 30%' is visible. A search bar is located at the top center. The main content area displays a book titled '101 Tình Huống Nhân Sư Nan Giải' by Paul Falcone.

Step 2: choose to increase or decrease or enter the number of products you want to buy

This screenshot shows the 'My Cart' page. The title 'My Cart' is at the top. On the left, there is a book thumbnail and its details: '101 Tình Huống Nhân Sư Nan Giải' by Paul Falcone, Language: Tiếng Việt, Format: Bìa mềm. In the center, there is a 'Quantity:' input field with a value of '1' and a red box around it. To the right, there is a 'Summary' table with the following data:

	Subtotal	127000.0đ
Discount	0đ	
Shipping	30000.0đ	
Total	157000.0đ	

A 'Check Out' button is at the bottom right.

Step 3: you can remove the product from the cart if you want, click the trash can icon

This screenshot shows the 'My Cart' page again. The book details are the same as before. The 'Quantity:' input field is set to '1'. Next to the price '127000.0đ', there is a small red trash can icon with a red box around it, indicating a delete function.

- **Check out:**

Step 1: Click Check out in the cart or click the cart icon, then click check out

## Search Pending order: Search for pending orders.

The screenshot shows the 'ORDERS LIST' page in the Ecommerce Admin. On the left, there's a sidebar with navigation links like Dashboard, Orders, Products, Customers, Employees, and Voucher. The main area has a search bar with 'From: mm/dd/yyyy' and 'To: mm/dd/yyyy'. Below it is a filter section with radio buttons for 'Pending', 'Approved', 'Delivering', 'Delivered', 'Refunding', and 'Cancelled'. The 'Pending' button is highlighted with a blue circle. An 'Apply' button is next to it. A table below lists 10 orders. Each row includes Order ID, Customer, Employee, Order Date, Required Date, Shipped Date, Ship Address, Ship City, and Status. The status column shows 'Pending' for all rows. At the bottom right of the table, there are page navigation buttons: '1', '2', and '»'.

localhost:8080/G3\_ProjectSwp/orderManage\_admin

and system will display all order in the system:

The screenshot shows a web-based application interface for managing orders. On the left, there is a sidebar with navigation links: Store management, Dashboard, Orders, Products, Customers, Employees, and Voucher. The main content area is titled 'ORDERS LIST'. At the top, there are date filters ('From' and 'To') and a search bar. Below that is a row of checkboxes for filtering: Pending, Approved, Delivering, Delivered, Refunding, and Cancelled. An 'Apply' button is next to these filters. The main part of the screen is a table with the following columns: Order ID, Customer, Employee, Order Date, Required Date, Shipped Date, Ship Address, Ship City, Status, and Action buttons (Approve and Cancel). The table contains several rows of order data.

Order ID	Customer	Employee	Order Date	Required Date	Shipped Date	Ship Address	Ship City	Status	Action

Step2: Scroll down to see pagination

This screenshot shows the same 'ORDERS LIST' page as the previous one, but it includes a pagination feature at the bottom of the table. The table has the same structure and data as the first screenshot. At the bottom right of the table, there is a set of small numbers (1, 2, 3, 4, 5) followed by a double arrow icon, which serve as the pagination controls. The rest of the interface is identical to the first screenshot, including the sidebar and the Windows taskbar at the bottom.
